Kinsmen Founder To Visit Minden

The Founder of the Kinsmen Clubs of Canada, Hal Rogers, and his lovely wife, Elspeth, plan to come to Minden on Saturday, May 2nd to attend the Golden Anniversary Ball, being given by the Kinetite Club. It is the occasion of the Kinsmen Club's 50th anniversary and the local Kinetite's 10th. Every effort is being made to make this an evening to remember as one of the highlights of the activities commemorating the Golden Year of Kin.

As well as Mr. and Mrs. Rogers, the Regional Governor and Deputy Governor and their wives are expected to be among the honoured guests, as are the originators of the Minden Kinsmen Club — W. M. "Deac" Jackson and Roy Windover. Convenor, Joan Fennell, reports that this will be a gala event from the golden invitations, through the champagne cocktail party to the finale of a midnight buffet.

Many reminders of the past years in Kin will be evident as they celebrate. These memories will only add to the enthusiasm of this very active, all Canadian Club, as they look to the future.

The Kinetite Club of Minden was formed in 1960, sponsored by the Lindsay Club, with the blessings of the Minden Kinsmen. Over the past 10 years, these young wives have supported their husbands' efforts to serve the needs of an ever growing community in many ways, not the least of which is cheerfully being "Kin widows" while their men give of their time to the projects in which they believe. In order to supply the funds necessary to assist in this work, the Kinetites have staged many dances, card parties, rummage sales, bake sales, fashion shows, blitzes, a Hydro Showtime Cooking demonstration, in conjunction with the Minden Branch of the Ontario Hydro, etc.

In 1967, the Kinetites hosted the region inter-club, entertaining over 100 fellow Kinetites from Bracebridge to Bowman-

ville. Each year, they have had an Anniversary party. At first, this was to be an evening for the Kinetites and their Kinsmen, but over the years it has mushroomed into one of the biggest social events in Minden. When one looks back to the Hawaiian Hula Hop, Bonanza Night, The Mad Hatter's Ball, Happening '67, etc., one sees Kin organization and fellowship at work, with the profits shown going to the Kinsmen to aid in their projects, such as the Minden Playground, the drive for Cystic Fibrosis Research, or the Mental Retardation Training Centre, which is the Kin's 50th Anniversary project.

As young men and women join the "veterans" of this very vigorous movement for brotherhood through service and fellowship, many more worthwhile accomplishments can be expected and many more gala evenings to honour "another year of Kin" will be planned.

Happy Anniversary Kinsmen and Kinetites. May your next 50 years be as eventful and productive.

HALIBURTON BREAK-IN UNDER INVESTIGATION

Police report a break-in was discovered early Sunday morning at Haliburton Marine in Haliburton.

Investigating officer, Constable D. J. Watson of the Minden detachment reports two rifles, several boxes of ammunition, a number of fish lures and \$40 to \$50 cash is missing.

Estimated value of the stolen merchandise is reported at \$250. An investigation is being carried out by the Minden detachment of the Ontario Provincial Police.

SIGNS DAMAGED

Damage was estimated at \$250 to a car and \$50 to DHO signs when a vehicle operated by Robert Henry Everson, RR 2 Haliburton, went off the road, last Wednesday evening. Const. D. J. Watson of the detachment here investigated.

SAMUEL W. WELCH - ONE OF MINDEN'S OLDEST BUSINESSMEN, DIES AT 84

One of Minden's oldest and most respected businessmen, Samuel W. Welch, passed away on Thursday, April 16th., in his 84th year.

Sam, as he was known throughout the area, operated the oldest general store in Haliburton County, here on the Main Street of Minden beside the Canadian Imperial Bank of Commerce.

He served his apprenticeship as a Clerk in the general store owned by J. W. Watson, on the location of the present Pine Shop, he was 13 years of age at the time. He later entered business as a general merchant with his Brother William in the location on the premises now occupied by the Minden Furniture Store.

In 1912 he purchased from the late John H. Delamere the present building, which at that time was the site of the Sterling Bank and printing office of the Minden Echo, as well as the Minden Public Library. In the upstairs of his general store, at the present time still remains the stage and curtains, when years ago it was used as a recreation hall for dances, etc.

Mr. Welch was Clerk of the Municipality of Anson and Hindon for many years, and Warden of St. Paul's Anglican Church on many different occasions. He was a very active member of the Minden Agricultural Society.

He was a member of the Masonic Lodge, having received his

BOWLING CHAMPS

The bowling team of Wally Crofts, Bea Harrison, Verna Wagg, Lea Barry, Beaulah Cowan, Charles Stevens, won both the league trophy and the play-off trophy this past week, in the Ingoldsby Mixed League.

The banquet for this league will be held Monday night, April 27th at Gelert Gardens. Congratulations to these winners.

HALIBURTON HIGHLANDS FREELANCERS MEETING

On April 6, 1970, the Haliburton Highlands Writers group adopted the name "Haliburton Highlands Freelancers" — Freelancers referring to writers who write for fun or profit and are not on the staff of any regular publication.

Tom Farmer of Minden was congratulated by members on his recent sale to a radio station.

Various projects were discussed and members were informed of numerous opportunities for publication such as travel folders, radio stations, and small magazine articles. These are considered lucrative markets for beginning writers.

The next meeting of the Haliburton Highlands Freelancers will be held on Monday, April 27 at 8 p.m. in the Gallery of the Haliburton School of Fine Arts. Anyone interested in writing for fun or profit would benefit by attending this meeting.

THURSDAY SMILE

There is a new reducing drug — sulfa-denial.

TOWNSHIP OF SNOWDON

20 acres with 2400' frontage on highway 519. Nicely treed, 2 acre pond on property. Good building lots.

TOWNSHIP OF STANHOPE

Excellent building lot 200' X 400'. Level and treed. Close to lake and river. Paved road. Price \$3,000.

Send for our free brochure. Listing property in the Minden and Haliburton areas.

HERE AND THERE

with Fenwick Finch

The dogs running loose through the village are in the news again — on two counts this time.

First the kind of help they are giving our garbage collector is the type of help he doesn't need. The dogs get to the garbage pails and bags first and spread the contents around.

A couple weeks ago our editor had some pictures in the paper asking about the fire hydrants and who was looking after them. My good friend John Hewitt tells me there are at least seven to ten dogs "taking care" of the hydrant at his corner. John's real problem will come later on when he starts planting the shrubs around his new house — the dogs may transfer their attention to the shrubs and they won't stand up under the attention as well as the hydrants do.

The solution seems to be, on both counts, get the dog catcher in action again and round up these dogs.

The Canadian Peace Festival is getting quite a bit of national publicity — Beatle John Lennon and his wife Yoko have had a change of heart and now say they want to have a part in the festival. The main problem is where to locate it — it has been rejected by Mosport Park, at Park Hill near Woodstock and now they are tackling Vaughan Township after being turned down in the St. Catharine's area.

Local rumour around Kinmount has it that the Festival people are trying to locate around the White Lake area near Fortesque Hills, South and West of Gooderham — the huge crowds, some two hundred and fifty thousand, that are expected would just about smother this area.

It's just a rumour and may be no more than that, but, it's something to think about.

Got another piece of graffiti in the mail last week. "Use the pill — take the worry out of being close."

Also in the mail a short note from "Haliburton County's Booster," Earl T. Monahan of Rochester N.Y. Earl has completed another magazine article and as usual, gave the County another promotional boost.

More and more I wonder where all these demonstrations by the great unwashed are going to end. It would appear that we are on the edge of anarchy. The pictures that are taken of these demonstrations lean heavily towards making the alleged students and their followers appear as heroic and oppressed. The police are rated on their "brutality" — have you noticed that the majority of the photos show the police clubbing some poor "unfortunate" but, very rarely do you see photos showing the police lying on the road injured after being slugged by one of these misunderstood students. It's about time some action and discipline was being taught in the schools — for too long now the cart has been dragging the horse — it's about time a strong front was put up — we are not too far away from trouble in our County — we'd better not wait until it happens — by that time it will be too late.

You can't get ahead of kids today — An irate father was going after his son for being shiftless, he said, "When John Diefenbaker was your age he was already a lawyer —" the kid came right back, "So what? when he was your age he was Prime Minister."

Fenwick

DOLLARS AND GOOD SENSE

with William J. Martin

Dear Mr. Martin: Can you tell me what "debt consolidation" is and how it works. Do you just turn over your monthly bills to someone else and they pay them for you? And what would it cost?

Mrs. C. D.

I'm afraid you have "debt consolidation" confused with "pro rating." The latter term refers to a service provided by some organizations which claim they will take over the payment of all your monthly debts, provided of course, that you give them so much per week or month, or whatever. The idea being that you just make one payment to the pro-rator and from this he makes all of your monthly payments and keeps a certain percent for himself. Free pro-rating for those persons who cannot get out from under their debts, is provided by community-supported credit counseling centers located throughout the U.S. and Canada.

Debt consolidation, on the other hand, is when you borrow enough money from a lending institution — bank or consumer finance company — to pay off all your existing obligations.

Say, for example, that you have about ten outstanding debts for credit purchases which you made and on which you're paying interest or a monthly service charge. You obtain a loan and pay off all these existing debts.

You now have only one outstanding bill each month. It is a loan on which you will also have to pay interest and probably at a higher rate than you were paying for the individual credit purchases. By the same token, it may be possible that your actual dollar interest payments on the one loan will be smaller than the total of lesser interest charges on all your credit purchases. But don't count on this. Remember that with a consolidation loan, you're not getting out from under your bills. You're just exchanging a collection of smaller debts for a larger debt. Debt consolidation is designed as a budgeting tool to enable you to pay debts that you couldn't ordinarily meet.

In other words, if you're paying \$10 on each of those ten obligations, you have to come up with \$100 each month. With a consolidation loan you can pay off all those debts and arrange to pay less each month on the consolidation loan — say \$60. The length of the loan may run longer than the terms of the other obligations, but at least you're meeting your obligations, and protecting your credit rating and standing in your community.

HALIBURTON 250

EX - MP CLAYTON HODGSON PASSES - MEMBER 18 YEARS FOR RIDING

Clayton Wesley Hodgson, a federal member of parliament for this riding for 18 years from 1945 to 1963 died suddenly at his Haliburton Village home Tuesday evening, April 14. He was 73.

The pioneer Haliburton lumberman was first elected in 1945 and was re-elected in the general elections of 1949, 1953, 1957, 1958 and 1962. He retired in 1963.

Mr. Hodgson retrieved the formerly strong Conservative seat, held for many years by Sir Sam Hughes and C. Stinson from Liberal member Bruce McNevin who had represented Victoria from 1935 to 1945. Following Clayton Hodgson's retirement, another Progressive Conservative Charles Lamb of Lindsay held the seat for nearly two years then William Scott, P.C. of Kinmount was elected in 1963 and again in 1965.

Clayton Hodgson has had two of his sons in the Ontario Legislative Assembly, present member for Victoria-Haliburton R. Glen Hodgson who succeeded the Hon. Leslie M. Frost and Louis Hodgson who represented Scarborough East for one term.

Two other sons are educators Douglas, who is director of education for Haliburton County and Tom principal of Millbrook School. He is also survived by his wife the former Phyllis Marjorie Dart and two daughters Anna, Mrs. Vance English of Haliburton village and Margaret Mrs. Don Downey of Eganville.

A brother C. O. Hodgson of Burnt River also survives.

The long-time Conservative member, who was known in his heyday as the "Tory Lion of the North" had been visiting in Haliburton Tuesday afternoon and apparently died suddenly after he returned home.

Mr. Hodgson was appointed parliamentary assistant to the Minister of Public Works in 1957 and parliamentary assistant to the Minister of Transport in 1959.

He was the president of the C. W. Hodgson and Son Lumber Company of Haliburton and served as president of the Canadian

Lumber Safety Association 1957-58.

He was also a past grand master of the Loyal Orange Lodge of Ontario and served on the Ontario Racing Commission.

Born in March 1897, Clayton Hodgson was the son of John Yeates Hodgson and Isabella, Wes Hodgson of Burnt River. He was educated at Burnt River public and continuation schools and at Orillia Collegiate and business college.

He served 23 years on the school board, municipal council and county council and on the municipal board of supervisors, athletic and recreation associations.

He served in World War One with the Canadian Army.

He was a member of the L.O.L., and P.G.M. of Ontario; Masonic, Member North entrance, Midland Chapter; Moore Sovereign Consistory; Scottish Rite and Shrine Rameses Temple; Highland Chapter, Order of the Eastern Star; Branch 123 Royal Canadian Legion.

He was a life member of Oakwood, Lindsay and Haliburton curling clubs and an honorary member of Haliburton Rotary and Lindsay Kiwanis club.

He is a past member of the Lindsay Central Exhibition board, and Lindsay and Haliburton Chambers of Commerce, Red Cross and Haliburton athletic and Recreation Association.

Funeral services were held Friday afternoon, April 10.

COACH LINES IS GRANTED LICENCE

The Ontario Highway Transport Board has granted a permit to Algar Coach Lines Ltd. to operate a public transportation system between Lindsay and the site of the 1970 International Plowing Match, said R. M. Algar, president of the company.

Algar Coach Lines has been providing regular transportation services in the Lindsay and Haliburton Highlands areas since 1932 and recently took over operating of the Lindsay town bus service.

The 1970 International Plowing Match will take place this year about five miles west of Lindsay and will attract thousands of visitors to the area.

The dates of the match are October 13 to 17 inclusive.

This bus service will facilitate the movement of visitors between the plowing match and the downtown area of Lindsay for shopping and sightseeing purposes.

Mr. Algar said the buses will operate each day of the match on a frequent schedule and complete details of times will be issued later in the year.

Sales & Service

P.O. Box 127 - Minden

Mom...we're home!

Exuberant...noisy...hungry...demanding...children. You'd better believe it. And be prepared.

It pays, for instance, to have the full-time help of electricity on your side. A well-stocked, frost-free refrigerator-freezer. A modern electric range with time and temper-saving self-cleaning oven. Small electrical helpers for quick mixing, beating, frying, percolating, opening of cans. And with a dishwasher, there goes another big chore.

As for the laundry...you can forget it. An automatic washer and electric clothes dryer will take loads off your hands, anytime.

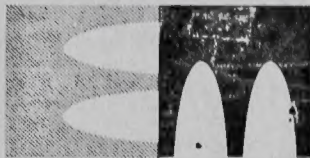

It pays, too, to have lots and lots of hot water always at the ready. (You can count on a Cascade electric water heater for that one.)

In fact, electrical help need never end — as long as your home has ample wiring, outlets and switches. If it hasn't, speak to a qualified contractor about Electrical Modernization. (And the Hydro Finance Plan.) Make it soon. You'll be so much happier when you hear that shout, "Mom...we're home!"

Full-time electrical help depends on up-to-date wiring

EDITORIAL

with Al Greir

THE THIEVES GO FREE

This prize winning editorial was written by Mrs. G. Craven of the Ridgeway Dominion and was awarded the Ontario Water Resources plaque. We think it is well worth reprinting.

Last week we visited Kenesserie Camp, the United Church Camp area on Lake Erie, near Clearville, and stood thoroughly ashamed to represent the older generation before the young campers as they told us how water pollution was affecting them.

It is one thing to read about the problem of water pollution at Windsor, or in Hamilton Bay, or somewhere else, it is another to relate it to eighty little girls who want to learn to swim and can't go in the water because it has been made dangerous by contamination, contamination caused by us, the older generation.

Last year campers were forbidden to use Lake Erie for swimming because tests proved it was contaminated. Officials quickly as possible had a swimming pool constructed. That mark you, in full view of the broad surface of Lake Erie! Bad enough as that was, the situation this year is worse, because tests proved that the water in the pool required more treatment than safety levels permit, so there we stood last week, eighty little girls grinning to prove they were good sports, and we with our head lowered in shame, looking at the lake on our right, the pool on our left, and no place to swim.

This problem of water pollution is a local, as well as a national disgrace. We have taken one of the most beautiful areas in God's world and fouled it up by the ruthless, wanton, almost deliberate destruction of our own natural resources. We have made a slogan "Ours not to use but to destroy!" We are all guilty. Industries in search of big returns on their investment have poured wastes into the rivers to avoid expense. Farmers in modern farm methods use fertilizers which find their way into the streams. Individuals carelessly or deliberately, throw bottles, tires, old cars, junk, sewage into our waterways.

This destruction of our natural resources is "theft" just as surely as if we stole the money reserve from the Bank of Canada. Thieves who steal money are followed, captured and punished, but thieves who steal the heritage of natural resources from our children are not stopped.

Personal liberty stops when it encroaches on the rights of others. It does not give the right to clutter, bespoil, destroy the natural resources which belong to us all. If a program of education regarding the danger of pollution is not enough, then a get-tough policy will have to be adopted with fines stiff enough to prove a real deterrent. The few must not be allowed to destroy the heritage of our youth.

As we look at those eighty youngsters, we thought of some other children who are lucky enough to have been sent north to camps where there is still fresh air and clean water. All children do not come from families that can afford to leave a lake at our very doorstep to travel three hundred miles north in search of clean water.

And how long will those northern lakes remain pure? As lakes and streams close at home become polluted, more and more people are going north and taking their filthy habits along with them.

Pollution is caused by people, it must be cured by people. The sooner we put pressure on the authorities to make this destruction of public resources an offense that will be punished, the sooner this theft will be stopped.

Meantime, what can we do as individuals? We can start by throwing our own gum wrappers and beer bottles into the trash cans instead of into the lakes and rivers. We can encourage others to do the same thing. We can support every plan developed by industry or government to clean up this pollution, even if it causes us some personal inconvenience or expense. We have a vast fortune to gain if we win, we have everything to lose if we fail; We had better get started, it is later than we think.

LETTERS TO THE EDITOR

Minden, Ontario,
April 13th., 1970

Dear Sir:

Probably because of my long standing interest in industrial development, the Editorial "Progress" in your issue of April 9th intrigued me.

It would appear to me that there presently exists a major road block to industrial use of land in and around Minden and I would refer you to the fact that Restricted Area By-Law No. 14-67 and amendments does not provide for industrial uses of any kind. In addition, there are some things that require careful investigation before any move is made to remove that road block. Should it be felt that certain lands could possibly be designated for such use, it will be found that re-zoning is a reasonably costly and time-consuming procedure.

While your editorial is obviously based on the correct assumption that sewer and water service is a prime industrial requirement, consideration must be given to the question of whether or not there would remain capacity to serve industry over and above domestic requirements.

The phrase "selling industry

to the community" would seem to raise the point as to whether or not the community wants industry. In the event that, following your lead, the community registers its approval there will remain the more difficult task of selling the community to industry. It can be done, but first there are at least four steps that are essential before any approach can intelligently be made to Provincial Industrial Development authorities and subsequently to industry.

1. Determination of the probable municipal set-up when and as this area may become a part of a larger Regional Government organization.

2. Survey of possible "industrial use" lands and securing at least tentative co-operation from the owners of such lands and the owners of lands adjacent thereto, relative to re-zoning.

3. Survey of the employee potential on a year around basis without crippling our presently flourishing resort industry.

4. Survey in the field of transportation with particular emphasis on the twice-a-week rail service to nearby Haliburton and Kinmount.

With all due respect, I would point out that your suggestion of possible tax cuts is quite wide of the mark. Existing legislation

specifically prohibits such action by any municipality. While it may be true that this area is included in a so-called "Designated Area" qualifying industry for special assistance both Dominion and Provincial, unless and until other matters are solved their value is purely academic.

May I assure you that my interest in the subject is in no way negative, in fact it is quite the reverse. My abiding interest is in advocating that first things must come first and I stand ready to co-operate with other like minded persons in whatever efforts are made to that end.

Yours truly,

Geo. W. Finley

Individual honours go to Doris Coburn ladies high average 192; Ruby Francis ladies high triple 721; Helen Burke ladies high single 313.

Mens high average Bob Coburn 221; mens high triple David Sawyer 776; mens high single Bill Locke 292.

SMELT FISHING

If our April weather stays cold, with bouts of snow and freezing rain, the annual spring run of smelt up rivers and streams will probably be delayed until the end of the month. However, if the weather warms up as it seems to be doing, the smelt may start running this week.

Remember, all males over 19 years of age need a fishing licence before they can go out after their mess of smelt. A \$3.00 regular fishing licence is adequate for using a dip net up to 6' x 6'. If a seine net is to be used, a special \$1.00 seine net licence is required.

ICE BLAMED FOR KAWARTHA FISH DEATHS

Kirkfield — Thousands of dead fish are floating to the surface of a canal between Mitchell and Balsam Lakes in this Kawarthas resort area.

A Department of Lands and Forest biologist, Bob Lewies, says the fish were probably killed by a combination of shallow water and heavy ice cover which cut the oxygen supply.

He estimates that between two to three thousand bass, muskie, pickerel, carp and rock bass have perished.

"But there could be a lot more still under ice and we won't know until that has melted," he said.

Lewies said he didn't believe the dead fish will pose a health problem to area residents. "They will be cleaned up quickly by birds and animals but the place stinks right now."

MINDEN MINOR HOCKEY NEWS

A little news on the Minor Hockey front this week — final arrangements have been made for the wind-up banquet. Norm Harrison who is in charge of this evening has the date set for Saturday night, May 23rd., starting at 6:30 in the Anglican church. The price is \$1.00 per person. The committee is trying to line up an NHL member, but so far a definite answer has not been given.

* * * *

Just a reminder for those who still have uniforms or equipment out, we would like this returned as soon as possible.

* * * *

No word on the jackets yet — although they are expected to be back in the very near future.

* * * *

Those who won Most Valuable Player Awards last year are asked to drop the large trophies into the Progress office, so they will be on hand for the banquet.

* * * *

The Glen Dart Tournament was played on Monday night in Haliburton — Bantams and Novice teams from here participated.

The Novice club dropped a 5 to 1 decision to Haliburton. Jeff Carpenter picked up the single tally.

The Bantams dropped their contest with Haliburton 5 to 1. Wayne Harrison picked up Minden's goal.

* * * *

A helpful hint to parents who are buying skates next year for their youngsters. A big mistake is getting them too large. A skate should fit like a glove, with only one pair of light socks. A good rule of thumb (but it doesn't always apply, depending on the make) is to buy a skate half a size smaller than the boys shoe size. Too many kids in Minor Hockey are handicapped with skates that are purchased to last a lad two and three years. If the skate size is right, a growing boy will only get one year out of a pair of skates.

Skates are the most important piece of equipment, a few extra bucks should be spent here, and if necessary a few less bucks spent on other equipment.

Principal

Mrs. R. Gorrie
Kindergarten Teacher

OBITUARY MRS. ISABELLA BRYANT

The death occurred recently at Sprucelawn Nursing Home of Mrs. Samuel Bryant of Norland in her 96th year. Funeral services were held in the Platoon Funeral Home in Fenelon Falls. The Rev. E. Yoshioka officiated and burial was in Pine Grove Cemetery in Norland.

The former Isabella Brough Soutar was the daughter of Andrew Cree Soutar and Annie Brough and was born at "Rackety Crick" in Lutterworth Township. Her family was one of the earliest settlers of this area, and Mrs. Bryant spent her early life at Deep Bay. After short periods spent in Toronto and Chicago, the deceased married Samuel John Bryant and the couple moved to Norland, where they lived until illness forced them to give up housekeeping only recently.

Mrs. Bryant is survived by five daughters, Mrs. Floyd Fountain, Marjorie; Mrs. Clarence Boyce, Ivy; Mrs. Harold Chynoweth, Hilda; all of Norland, Mrs. Howard Saunders, Bertha of Ottawa, and Mrs. Frank Kerr, Christina of Cobocok, and one son Neil of Norland. She was predeceased by her husband.

TWO ACCIDENTS IN THIS AREA

Minden OPP report two accidents over last weekend, both on Highway 530 between West Guilford and Maple Lake. At 9:00 p.m. Saturday a car driven by Doreen Mary Sisson, 20, of Havlock Township, Haliburton, went off the road. Damage was estimated at \$1,500 and the driver received minor injuries. Const. William Devereaux investigated.

At 5 a.m. Sunday a car driven by Terrence Everett Blair, 20, of Toronto struck a car parked on highway 530 causing \$300 damage to the parked vehicle and \$800 damage to the Blair car.

Blair received minor injuries in the crash and was charged with careless driving. The parked vehicle belonged to Gerhard Friedrich Alsen of Don Mills. Const. D. W. Potter investigated.

ABOUT THE TOWN

With Jeanne Sears

I'm sure last Friday everyone gave a huge sigh of relief when the astronauts landed safely. The measures and training that had been taken surely were put to good use so that all three returned. We understand that the next expedition has been postponed until everything is perfect for the next step.

Heather McCallum, a first year student at Centennial College Scarborough has been selected as Top Athlete for the year. This is the first time a first year student has been given this honour. Congratulations.

Be sure to get your permit at Lands and Forests to burn that brush or grass and choose a calm day and observe safety precautions. Nearly every year the firemen are called out through carelessness.

A group of ladies from the village enjoyed the short course Fashion cues for you at the Orange Hall last Wednesday, given by Miss Elaine Fraser of Extension Services. This was very enlightening, giving the ladies ideas on colours and lines to suit the individual. In the afternoon a draw was made on some gifts with winners being Miss Dora Dawson and Mrs. Roodenburg. At the conclusion of the course a small token was presented to Miss Fraser from the Women's Institute who had sponsored the course.

If April comes —
(Or so the saying goes)
May will bring the green grass,
June the way-side rose —
But melting snows bring memories
Of quite another kind —
If April comes
Can mud be far behind!

N. S. Berg.

Hint of the week — Dropped your needle and can't find it? Darken the room and use a flashlight, that shiny item is the needle also good for small pieces of broken glass.

Mr. and Mrs. James Stevenson of Whitby spent the weekend in the village and visited his mother Mrs. Stevenson Sr. at Hyland Crest.

We welcome Dr. Armstrong who is taking over the Medical services while Dr. Koval and family are away on holidays. We might also mention that Dr. Armstrong is a jogger — he is setting a good example for the rest of us, who need a little exercise.

Patients at the local hospital on Monday included Richard Leemet, Mrs. Anna McBride, Mrs. S. Crawford, Mrs. D. Prentice, Mrs. Mary Zozia, Mrs. Mabel Titus, Mrs. Audrey Douglas and Miss Sherry Sawyers.

Had a lovely week with sun shining every day, tho the wind was cold, as ice not out of the lakes. Rainy today so everything will look greener after this. Cheerio until next week.

Secretary Wanted

Secretary Wanted — for Haliburton Secondary School. To start work as soon as possible.

Please submit qualifications by mail prior to Tuesday, April 28th.

KINSMEN AND CYSTIC FIBROSIS

The year 1963 marked the beginning of the Kinsmen CF relationship when Dr. Douglas Crozier of the Ontario Hospital for Sick Children in Toronto spoke to the Kinsmen of the North York club and explained this dreaded childhood disease. The word spread throughout neighbouring Kinsmen clubs and the proceeds of their 1964 Tag Day were turned over to Cystic Fibrosis research.

The District "8" Executive in 1964 were seeking a project for the fifty-five clubs of the district. After considering many worthwhile causes, the Canadian Cystic Fibrosis Foundation was asked to make a formal presentation to the Kinsmen District Convention in June of that year. Unanimous approval was given and the Kinsmen accepted CF research as their District Project.

In 1967 approval was given for the yearly sponsorship of a Kinsmen Cystic Fibrosis Research Centre at the Hospital for Sick Children in Toronto, which was opened in May 1967, under the guidance of Dr. Crozier. The clubs endeavour to raise approximately \$30,000 a year for this sponsorship.

In the years 1964 to 1969 District "8" Kinsmen and Kinettes have raised over \$160,000 to fight Cystic Fibrosis through research.

In January 1968 the Kinsmen CF Board of Management was formed to co-ordinate the efforts of the clubs and to administer the funds raised. That same year, another milestone was marked when Zone "E" of District "8" in conjunction with the Board of Management sponsored an educational booth in the Better Living Centre at the C.N.E. This booth has been continued since that time.

The search for an answer continues and Kinsmen will keep on raising funds to meet their research commitments. The richest gift that Kinsmen can give is the "Breath of Life" to little children.

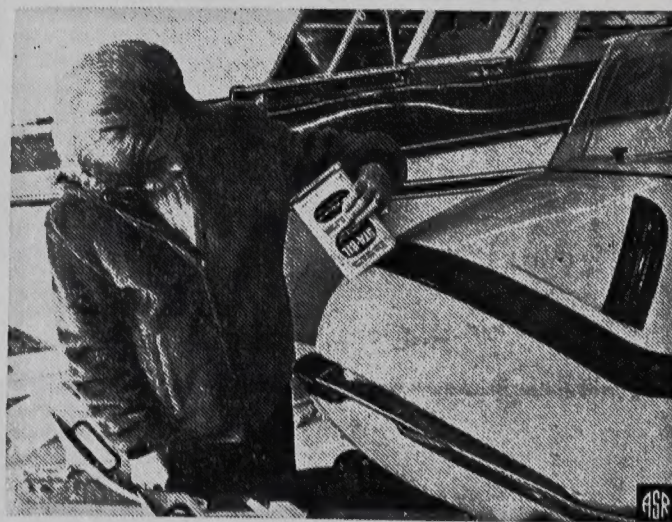

BOWLING PARTY

The Carnarvon ladies league challenged the Minden afternoon leagues to a tournament at Medley's Lanes, Carnarvon last Wednesday afternoon.

There were 24 ladies participated and the high triple of 658 went to Norma Parrish and high single 265 to Kay Barry. In total pins the Minden ladies had high total of 5501 pins and Carnarvon ladies had 5262.

This was an enjoyable afternoon with all enjoying the competitive sport.

It's Spring Tonic Time For Your Snow Motors!

Use of a stabilizing fluid in gas tank eliminates the odious and tedious task of draining and insures instant starts for next year.

Season's end has lost its troubles for the owners of snow equipment, such as snowmobiles and snow blowers.

Once they had to spend hours huddled over the engine getting it ready for storage, going through the messy and often risky business of draining gas tanks, carburetors and gas lines.

Now all they do when it's time to put the snorter to sleep for the summer is to add an ounce of new stabilizing fluid to each gallon of gas left in the tank. After the motor has been run for 3 to 5 minutes to distribute the stabilizer, it will keep the fuel system clean for one year. Sta-Bil, developed by Knox Laboratories of Chicago, when blended with gasoline prevents gum and varnish from forming in gas lines, on needle valves, floats, float valves, and on carburetor jets, so that the motor will start easily after storage.

The gasoline stabilizer is the invention of Lewis Knox, a chemist who wanted to eliminate the need to drain the gas out of the engine of a boat. It has been used extensively by industrial engine manufacturers and now, the additive has been approved by the leading motor manufacturers of the U.S. and Canada. Sta-Bil is available at most motor dealers, as well as hardware, marine, and lawn supply stores.

You can also write Knox Laboratories, 2835 South Michigan Avenue, Chicago, Ill. 60616.

FRANZ - PAUL DECKER

"... I like to do something, so that people can say, after a certain time 'Decker was not here in vain.'" Franz-Paul Decker once made this statement, and as conductor of the Montreal Symphony Orchestra since 1967, his aim has undoubtedly been to build a first-rate, internationally important orchestra. CBC-Radio network listeners who want to hear the Montreal Symphony under Decker's tutelage, should tune in to Symphony Hall, a program it shares with the Toronto Symphony Orchestra on Sundays (AM) and Tuesdays (FM).

The Entre Nous group, Chantal Beaugard, Jim Robertson and producer Roberta Walker, looked in on a Toronto discotheque, The Electric Circus, liked the decor and had their pictures taken inside a glass-cubbed room. The mid-afternoon music and conversation show replaces the provincial and national school broadcasts in most areas for the summer months. By June it'll probably be a nation-wide show.

The Fred Dobbs Radio Program begins April 25 with that venerable old man from Beamsville letting loose with everything he's got. He'll have such illustrious guests as Charlie Farquharson from Parry Sound, Winnie de Bris, a fading silent screen star, Don Harron and Barbara Hamilton. On one show, Fred takes Barbara to a horse race and tells her what it's really all about. In another segment, Fred and Charlie go for a stroll along Toronto's "strip" area — and that's where the action is, they say!

On April 29, voters in La Belle Province decide who will form their next provincial government. CBC radio will be bringing first-in results to listeners across the nation with special bulletins after the polls close.

Beethoven, the Shakespeare of music, is the absentee guest of honour as CBC radio celebrates Beethoven '70 to mark the 200th anniversary of his birth. There'll be a special 10-week series beginning Sunday, April 26 to celebrate the occasion. Musician and music producer Dirk Keetbass' Beethoven '70 program is a survey of the master's works, both catalogued and uncatalogued, spanning a period of 40 years, and totaling about 600 works. The program includes chamber, voice and orchestral music.

The teams are still battling it out on the ice to decide this year's Stanley Cup champions, so there'll be some program pre-emptions. Keep the faith, non-sports fans, it'll be over in May!

BINGO

The Rotary Club of Minden hold Bingo every Thursday evening. Game time is 8 p.m. sharp. 21 games each week, all cash prizes.

Walter Safety says,
"Think, don't sink!
Be water wise!
Learn and practise
water safety every day.
If you're ever in
trouble in the water,
call for help."

IN MEMORIAM

ALTON — In loving memory of a dear husband Herbert, who passed away accidentally on April 29th, 1969. This month comes with sad regret. It brings back a day I won't ever forget, He fell asleep with out goodby, But my memories of him will never die. I miss him more than anyone knows, As each day passes the emptiness grows. The tears I shed will wipe away, But the ache in my heart will always stay. No one knows the grief I bear, When our family meets and hes not there. He left us so suddenly his thoughts unknown. But he left me memories I am proud to own, Now in a quiet country Grave yard, Where the gentle breezes blow, lies the one I love so dearly that I lost one year ago. God gave me strength to take it and courage to face the blow; But what it meant to lose him, no one will ever know. Oh what I would give to clasp his hand his happy face to see, to hear his voice and see his smile — That meant all the world to me. Sadly missed and will always be remembered by: Wife Ellen.
